

INKWALLTECHNOLOGIES

FULL STACK WEB DEVELOPMENT

INTERNSHIP

CERTIFICATE

This is to certify that the project report entitled "Matrimony website" being submitted by V.Gayathri,M.Rajiv ,N.V.Sairam sreejith,S.Sriyuktha, Sayed abed basha and A.Srikar has successfully completed the one month internship cum hands on training program conducted by Inkwall in "FULL STACK WEB DEVELOPMENT" under the guidance of Mr.prashanth kumar,full stack developer. During the period of this internship with us,they were found punctual, hardworking and inquisitive.

Supervisor: Mr.Prashanth Kumar

ACKNOWLEDGEMENT

Before getting into the thickest of the things, We would like to thank the personalities who were part of our project in numerous ways, those who gave us outstanding support from the birth of the project.

We are extremely thankful to Mr prashanth for providing necessary resources for the accomplishment of our project by Inkwall in "FULL STACK WEB DEVELOPMENT".

We here by express our deep sense of gratitude to Inkwall for giving us this opportunity.

Thanks for your valuable guidance and support.

ABOUT THE INTERNSHIP

This thirty day internship program is much informative and definitely a great experience for me. Training for 15 days on web development was given by Mr. prashanth which made learning easy and quick, we also had a hands on session where we built our own social media website and we were also given mentorship and had a great support. We as a team got indulged into a real time project which is to build a matrimony website. We worked together, shared our views and ideas to build a good project on our own which is a good quality time I spent with my team and gained a skill, I thank my mentor and my team for being more cooperative and helpful in every step. I experienced excellent training and great team work. This internship will definitely be helpful to my career.

FULL STACK WEB DEVELOPMENT PROJECT REPORT

DAY TO DAY REPORT

DAY	REPORT
DAY 1 (14/05/20)	Introduction to php, html5, client and server sidescripting,structure of html5 document,UI and UX.
DAY 2 (15/05/20)	Different types of tags,creating tables and forms,check boxes,placeholders.
DAY 3 (18/05/20)	Attributes, row and column span,divisions,css,padding,introduction to bootstrap.
DAY 4 (19/05/20)	Forms and navbar,Bootstrap,introduction to java script,classes and containers.
DAY 5 (20/05/20)	Object model in java script,introduction to jquery,Jquery library.

DAY 6 (21/05/20)	Concepts of jquery,php,description about xampp and atom.
DAY 7 (22/05/20)	Object oriented programming Semantics :inheritance,encapsulation, abstraction, class, object, polymorphism, method overloading and overriding.
DAY 8 (23/05/20)	My sql,types of sql commands,DDL,joins,overview of RDBMS.
DAY 9 (25/05/20)	Gone through controllers,.htaccess,home.php,layout folder,form_validation library.
DAY 10 (26/05/20)	Started hands on session, downloaded atom,xampp,codeigniter files,hosted a project in atom.
DAY 11 (27/05/20)	sample templates in controllers, created home.php header and footer files in views, integrating bootstrap and modified routes.

DAY 12 (28/05/20)	Set up the CodeIgniter project and linking the required bootstrap files
DAY 13 (29/05/30)	Downloaded bootstrap and extracted it to assets folder, created layout in views, linked style sheets.
DAY 14 (30/05/20)	Downloaded jQuery and included it to assets folder, created navbar, textarea, submit button.
DAY 15 (31/05/20)	Seen how to upload an image into database and using it in the project.
DAY 16 (01/06/20)	Started the real time project "MATRIMONIAL WEBSITE", decided the title and specifications, discussed the user and admin dashboards, began with login and register pages.
DAY 17 (02/06/20)	Completed login and register pages with the database, discussed the UI and UX part.

DAY 18 (03/06/20)	done with the admin login and admin dashboard UI and UX and completed login and register controllers.
DAY 19 (04/06/20)	Completed login and register screens along with the database.
DAY 20 (05/06/20)	Set target to complete login and register controllers, models required, prepared layouts for user and admin dashboards.
DAY 21 (06/06/20)	UI/UX design for user dashboard, Userprofile,matches,settings,logout
DAY 22 (07/06/20)	Designed admin dashboard, navbar and UI/UX design for it.
DAY 23 (08/06/20)	Listing the registered profiles, developed code for logout controller for admin.

DAY 24 (09/06/20)	Designed UI for news section, news updates can be viewed in homepage.
DAY 25 (10/06/20)	Completed the match function, exchanging of male and female profiles, dropdowns and match button.
DAY 26 (11/06/20)	completed the admin dashboard including the match and news functions, added contact us and about us features.
DAY 27 (12/06/20)	Checked whether the user and admin dashboards are working properly and verified the whole project before submitting it.
DAY 28 (13/06/20)	Project submission
DAY 29 (14/06/20)	Report submission
DAY 30 (15/06/20)	Project pitching

PROJECT TITLE: matrimony website

submitted by : V.Gayathri

Team members: M.Rajiv

N.V.Sairam Sreejith

V.Gayathri

A.Srikar

S.Sriyuktha

Sayed abed basha

SUPERVISOR: Mr.Prashanth Krishna

ABSTRACT

The purpose of building websites is to help a company or an organization to maintain communication with their clients and also to increase popularity, clients can easily get the product knowledge and understand the services provided by a particular company by visiting their website, this makes work easier. web development has a very good scope in coming days as every organization prefer to have their own website.

In this internship we built a social media website and also a matrimonial website using frontend and backend languages this gave me good knowledge.

PROBLEM STATEMENT: In the practical world we have many matrimonial websites which provide various services but they may also have fake profiles, incorrect details and information about a person, few clients lack seriousness and include wrong information just because it is for free this may cause problems later.

SOLUTION: To avoid the existing problems we come with 100% verified profiles and including much information about every client, dividing website to different communities, transparent access to all the registered profiles and showing results according to preference, providing security.

INTRODUCTION

This internship is all about developing a website, our project is to develop a matrimony website which helps a user to find a perfect match .keeping this objective in mind we have developed an authentic match making website.

For this website we provided the following capabilities

- . User registration
- . user login
- . user profile
- . User profile update
- . Profile picture update
- . Matches found
- . Admin login
- . Admin page(list of registered candidates)
- . Match made by admin
- .Profiles exchange
- . News update
- . Home page
 - about us
 - Contact us

MATERIALS AND METHODS

Software's and platforms used:

Html5

CSS 3

JavaScript

Php-CodeIgniter

My sql

xampp

text editor: atom

Frame works:

CodeIgniter

Bootstrap

SCREEN-1: Home page

CODES USED:

HOME.PHP

RESULTS AND DISCUSSIONS

The result of this website is to provide a perfect match for a registered candidate ,when user gets loggedin to his account and click on mymatches in his profile he should find a match made for him by admin, this happens when admin exchanges two profiles i.e male user gets notified about the match found for him and same with the female user she gets notified about the match made for her.

CONCLUSION

To conclude ,I can honestly say that my time spent interning with Inkwall resulted in developing my skill and good team work .I gained much practical knowledge in the span of thirty days.We worked on two projects social media platform and matrimonial website and succesfully got the desired result .I thank my trainer Mr.prashanth for his amazing teaching and support. I got an opportunity to meet amazing people and this internship is also good to find out my strengths and weaknesses.

FUTURE PERSPECTIVE

Matrimonial websites will definitely have a good scope in coming years. In future my project look useful as today. I am pretty sure that user necessities will increase but with little effort updating on certain features can be done like adding on more verified profiles, adding some essential features needed and improving information privacy and security around all activities, it helps in finding a perfect match and remains relevant in future. Such kind of match making services is very useful for every community as we have many religions divided into caste and subcaste.
